Tree of Dreams Activity

- Put up a huge decoration in form of a tree with branches on one of the walls (If there is a column/pole in the room, you can surround it with the image of a tree made out of bristol board)
- Each child receives a page in the shape of a leaf, on which he writes wishes for himself, his family, the group and to anyone he chooses.
- Throughout the year they can look again at the leaves and find out which of the wishes came true, and which of them hadn't yet materialized.
